Church Construction

Mission Trip to Uganda

Education and Training Help

Your donations provided tuition and fees for 12 Elementary students totaling over \$2,100 in the last 30 days. Many of these students were Pastor's children unable to afford the tuition costs.

Other students are bright, intelligent and dedicated to completing their studies in College or Vocational Schools.

Additionally, we provided advanced professional training for a few others already graduated from college and well established in their trades. This advanced training provides a basis for better income.

Medical Assistance Given

Many ministers and their families in Uganda and Rwanda have no socialized medicine available. Medical care is inconsistent or non-existent for some. We provided over \$350 in care by providing medicines, payment for doctor services, or even dental care for several minister's family members. Without your donations this would have been impossible. Thank You for doing your part.

Church Facility Construction Projects

We just concluded the construction of a church in the Wakiso zone 60 km from Kampala. This church construction has totaled \$21,000 and still has more to go in regards to the cement floor and electricity.

Pastor Paul Isabirye and his wife, Florence, report that God has grown their church attendance, bringing several more to faith in Christ. They recently held a water baptismal service which you see in the pictures below at the bottom of the page.

We also started another construction program for Pastor Erastus Tumehogyere near the remote border between Uganda and Rwanda. We sent \$2,000 to purchase bricks, cement and mortar for completing the foundation and the start of raising the walls. See picture below.

Our Mission Trip to Uganda Updated

Your generous donations have provided sufficient for the purchase of airline tickets to Uganda. Thank you! Any further donations will be used to encourage pastor's as we travel..

Our co-partner ministry, World Outreach Ministries Foundation, asked us to delay our travel until January 2023 so they could have a "Grand Opening" at their new Bible school property in Buvvi. I will be teaching "The Minor Prophets" and "Church Planting and Evangelism" to their graduating class. Ruth will minister as well where needed.

We also hope to host a "Zone Pastor's Conference" in one of the less visited and remote ministry zones in Uganda. This type of encouragement is so needed to these pastors, and inspires them in the work of the Lord. Your prayers for their ministry aids them also.

Pictures of Your Donations at Work in Africa

Thank You for your gifts. Without your contributions the impact would be far less. You make a great difference in the lives of people by your giving. **Thank You! We love and appreciate you!**
